Week Three

Studio and Portrait Technique

Week Four

Low Light Photography

Week Five

Wild Card Week-Class will select subject

Week Six

Printing

Week Seven

Field Trip

Week Eight

Review

All students will need to have a camera with manual exposure and focus controls, preferably with detachable flash and interchangeable lenses. If there are holidays in the midst of our classes we may find it necessary to modify the schedule, which will be discussed by the class before any changes are made.

Completion of Digital Photography 1 or experience using manual exposure successfully is necessary for you to take this class. If you lack understanding of exposure, please consider taking Digital Photography 1 first.

All classes are scheduled for Monday nights at 6:30pm. Except for the field trip, classes will be located at the Shooters Studio in Nags Head at Central Square.

All questions about the class may be directed to Tom Gartman at 252-573-8648 or info@gartmanbeachpix.com. Documentation for the class may be accessed and downloaded at www.gartmanbeachpix.com/photoclass/photoclass2.htm.
