

Editing Photographs

in Photoshop and Camera Raw

This class starts with a quick familiarization with the basic tools in Photoshop and Camera Raw. Each week will have a shooting assignment and the students will bring in the images they shot and edit them in Photoshop and Camera Raw. As the class progresses the students will get to grow more familiar and comfortable with the tools while editing their own photos.

- I. Introduction, workflow and first assignment**
 - A. Familiarizing the teacher with the students and vice-versa.
 - B. Workflow explained
 - C. A look at Photoshop and Camera Raw (ACR) tools
 - D. Assignment: Landscape and Scenic photos
- II. Landscape and Scenic Photography**
- III. Using Fill Flash** (Sunrise or sunset portraits for extra credit)
- IV. Architecture** (HDR shots for extra credit)
- v. People** (Throw in some pets for extra credit)
