

A Shot in the Dark

This week, go find a place or situation where you would normally use a flash, and challenge yourself to shoot without it.

1. A stage show (where photography is permitted)
2. Inside a church
3. Inside a restaurant
4. The soundside shortly after sunset

Find someplace not-so-well-lit; turn off the flash; crank up your ISO; grab your tripod and your fastest lens; and make pretty pictures!

Shoot Raw files, then edit them.

If you need help, I'm just an email or phone call away.
